U.S. Core Data for Interoperability Task Force

Christina Caraballo, Co-Chair
Terrence O'Malley, Co-Chair

March 25, 2019

Agenda

- Call to Order/Roll Call

- Opening Remarks and Workgroup Schedule

- Review HITAC Feedback

- Review Provenance Data Elements Comments

- Discuss Clinical Notes Data Elements

- Public Comment

- Next Steps and Adjourn

The Office of the National Coordinator for
Health Information Technology

Work Plan – Phase 1

Meeting Date	Potential Discussion Items
~~February 20, 2019~~	• HITAC – Announce USCDI Task Force charge
~~March 5, 2019~~	• Kickoff Meeting for Phase 1 • Discuss Patient Demographics Data Elements
~~March 11, 2019~~	• Discuss Provenance Data Elements
~~March 19, 2019~~	• HITAC – Present progress on draft recommendations
March 25, 2019	• Discuss Clinical Notes
Week of April 1, 2019	• Discuss Pediatric Vital Signs Data Elements • Draft recommendations
Week of April 8, 2019	• Update and refine recommendations
April 10, 2019	• HITAC – Present draft recommendations
Week of April 15, 2019	• Finalize recommendations
April 25, 2019	• HITAC – Present final recommendations

Group Discussion

- Review HITAC Feedback

- Review Provenance Data Elements Comments

Clinical Notes Data Elements

- ONC has proposed the following Clinical Notes Data Elements to be included in USCDI v1:

  - » Consultation Note

  - » Discharge Summary Note

  - » History & Physical

  - » Imaging Narrative

  - » Laboratory Report Narrative

  - » Pathology Report Narrative

  - » Procedure Note

  - » Progress Note

- ONC requests comment on the inclusion of these eight data elements in USCDI v1.

- Any missing Clinical Notes Data Elements?

Public Comment

To make a comment please call:

Dial: 1-877-407-7192

*(once connected, press "*1" to speak)*

All public comments will be limited to three minutes.

You may enter a comment in the
"Public Comment" field below this presentation.

Or, email your public comment to onc-hitac@accelsolutionsllc.com.

Written comments will not be read at this time, but they will be delivered to members of the Workgroup and made part of the Public Record.

The United States Core Data for Interoperability Standard

We propose to replace the "Common Clinical Data Set" (CCDS) definition with the "United States Core Data for Interoperability" (USCDI) standard beginning with USCDI Version 1 (v1) in § 170.213. This will increase the minimum baseline of data classes that must be commonly available for interoperable exchange.

USCDI reflects the same data classes referenced by the CCDS definition and includes new required data classes and data elements:

Provenance

Clinical Notes

Pediatric Vital Signs

Address & Phone Number

If adopted in a final rule, health IT developers would be required to update their certified health IT to support the USCDI v1 for all certification criteria affected by this proposed change.

USCDI Standard Annual Update Schedule

ONC intends to establish and follow a predictable, transparent, and collaborative process to expand the USCDI, including providing stakeholders with the opportunity to comment on the USCDI's expansion.

Phase 1 Charge

- **Principal Charge for Phase 1:** Review the newly specified Data Elements proposed in the USCDI v1

- **Specific Charge:** Provide recommendations on the following:

  » Inclusion of Provenance Data Elements

  » Inclusion of Clinical Notes Data Elements

  » Inclusion of Pediatric Vital Signs Data Elements

  » Inclusion of Address and Phone Number Data Elements

  » Missing Data Elements within Proposed Data Classes

USCDI v1

Data Elements not highlighted are already included in the 2015 Common Clinical Data Set (CCDS).

The highlighted Data Elements are those for which ONC is seeking recommendations in the Phase 1 charge.

A SET OF DATA CLASSES TO SUPPORT NATIONWIDE INTEROPERABILITY

The USCDI Version 1 (USCDI v1) is proposed as a standard (§ 170.213). It reflects the same data classes referenced by the CCDS definition and includes new required data classes and data elements, noted below.

If adopted, health IT developers will need to update their certified health IT to support the USCDI for all certification criteria affected by this change.

USCDI v1

Assessment and Plan of Treatment

Care Team Members

Clinical Notes *NEW
- Consultation Note
- Discharge Summary Note
- History & Physical
- Imaging Narrative
- Laboratory Report Narrative
- Pathology Report Narrative
- Procedure Note
- Progress Note

Goals
- Patient Goals

Health Concerns

Immunizations

Laboratory
- Tests
- Values/Results

Medications
- Medications
- Medication Allergies

Patient Demographics
- First Name
- Last Name
- Previous Name
- Middle Name (including middle initial)
- Suffix
- Birth Sex
- Date of Birth
- Race
- Ethnicity
- Preferred Language
- Address *NEW
- Phone Number *NEW

Problems

Procedures

Provenance *NEW
- Author
- Author Organization
- Author Time Stamp

Smoking Status

Unique Device Identifier(s) for a Patient's Implantable Device(s)

Vital Signs
- Diastolic Blood Pressure
- Systolic Blood Pressure
- Body Height
- Body Weight
- Heart Rate
- Respiratory rate
- Body Temperature
- Pulse oximetry
- Inhaled oxygen concentration
- Pediatric Vital Signs *NEW
  - BMI percentile per age and sex for youth 2-20
  - Weight for age per length and sex
  - Occipital-frontal circumference for children >3 years old
